SLimFIT

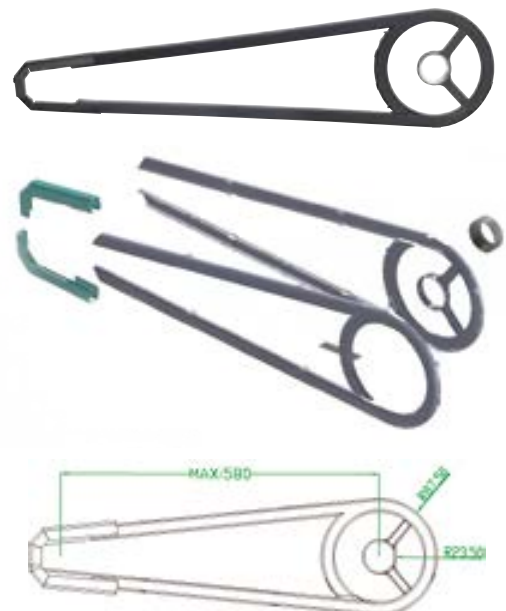

C-136

• Full chain cover for Max.: 38T with long RC .

Slimfit from YF, a low maintenance and less drag solution for the ultimate chain-cover.

The Slimfit from YF offers the ultimate solution for an minimalistic looking chain-cover . It is made out of high durable materials for low maintenance. Compare to similar German products, the Slimfit have much lower resistance on the chain, because of the 2 frame mountings that prevent the cover from dragging on the chain.

The patented front mounting offers a smart solution to keep the cover aligned in the middle of the chain without adjustment. This solution makes it possible to create the smallest fully covering chain cover in the world.
